The brand.

Delighted *to have you.*

At Karizma Luce we love to delight you. Our high-quality and extensive range has everything you need to exceed your expectations. Whatever lighting challenge you face.

Let's take your next lighting project to an unparalleled level. Let's amaze people who work, shop, enjoy and live there. In this brochure we'd like to share the very heart of our brand with you. Let's delight.

Charming.

We just love lighting with charisma.

Every single day, our mission is to delight you and the people who enjoy our lighting. That ambition distinguishes us in the market.

That is why you can always count on our extensive service. In all facets. Because we know that real commitment makes all the difference in this challenging industry.

Just tell us what you wish. Not what you need. Let's create unique premium lighting together. We promise it will be good. And even better than you expected.

Confident.

As a Dutch manufacturer, the drive for innovation is in our genes. We have our own R&D department and cooperate with external partners, laboratories, certification institutes and universities.

Manufacturing also takes place in-house. With only top-quality components. And with a sublime high-quality finish. The result? An unprecedented lighting range coupled with outstanding performances.

Therefore, we are a preferred partner for high-end architects and project lighting companies worldwide. We are convinced that together we will make your project even more spectacular than your previous one.

Joy.

We may be a young brand, but we are packed with expertise. In the recent years, many experts joined us. From the Netherlands, but also from abroad. People with love for their profession.

What unites us all is that we love to share our enthusiasm. We do this by continuously improving our product range. By always being adventurous. By inspiring you and by having joy in everything we do.

Adding charisma together to all the places where people live, shop, enjoy and work gives us unprecedented energy. We look forward to sharing this with you for a long time to come.

Projects.

Take advantage of our expertise in lighting in hospitality, luxury housing, retail and offices. Combine elegant Italian design with excellent performance to fully realize your ambitions.

"Hospitality is present when something happens for you. It is absent when something happens to you."

Hospitality.

Let's create a guaranteed feelgood factor for your guests. At any time of the day. Experience is key when decorating hotels, bars or restaurants. Our hospitality lighting solutions are beautifully designed, for all areas, very user friendly and contribute to a great welcoming experience.

*"Dedicate yourself to the good
you deserve. You deserve to be
happy. You deserve delight."*

Residential.

Residential lighting by Karizma Luce transforms every room of a luxury home into something truly special. Often the choice of lighting is considered a finishing touch, but actually it is the basis of a good architectural design. Let's create a piece of art with unprecedented possibilities in illumination.

*"Charisma's good every night.
Something special is always
about to happen. You've got
to believe it."*

Retail.

Who can resist a commercial environment with a refined ambiance? The exclusive design of Karizma Luce luminaires fits perfectly in art boutiques, jewellers, coffee corners and luxury cosmetics stores. Our luminaires enhance the sense of quality and take the shopper experience to an even higher level.

*"Places can have charisma,
in short, as much as people do."*

Offices.

Each office deserves the perfect illumination: a very low glare, suitable beam angles and the best option with a human centric lighting option. Our portfolio allows you to create a motivating and atmospheric ambiance, where it is a pleasure to spend your working day.

Come visit us.

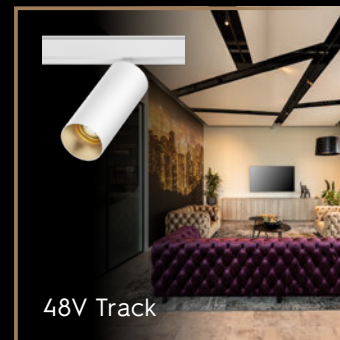

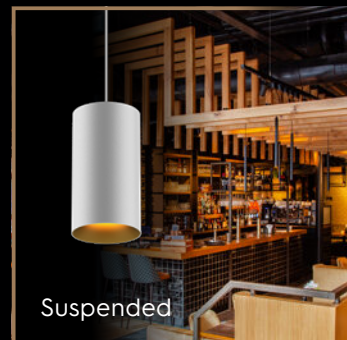

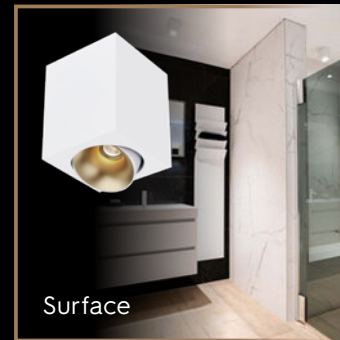

You are more than welcome to experience all our newest lighting solutions for yourself. Our brandnew HQ is fully equipped with all fixtures from our range. Watch and try them live and get a good impression of their quality and possibilities. Learn more about all technical specs in our R&D area, get inspired in our showroom and meet our team.
